

Application Process

1

Submit your interest in applying.

2

A Kaipara Moana Remediation Field Advisor (KMRFA) will contact you to discuss your project and schedule a site visit.

3

The KMRFA will assist you to develop your Sediment Reduction Plan, and identify possible projects eligible for funding.

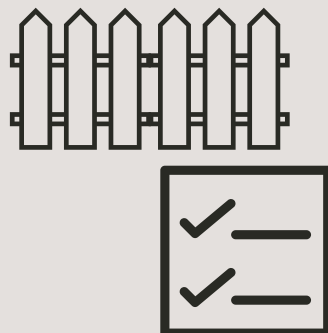

4

The KMRFA will submit your application to a KMR representative for approval.

8

After the KMR representative signs off your project, you will be reimbursed the grant amount, specified in the contract and related to the stages of work carried out.

7

After the project is completed and formal notification made, a KMR representative will visit your site within 2 weeks of planting and within 3 weeks of other actions, to confirm that work is completed and up to the agreed standards.

6

Work on the project can only begin after the contract is signed.

5

Once the project is approved, a contract will be signed by you and a KMR representative.

About the payment:

- Payment will be made on the 20th of the month after invoice has been received.
- Payment for the base cost of the trees will be directly given to the supplying nursery upon order.

The contract will include:

- the grant amount
- timeframe for completion
- fencing length, type and setback
- planting areas and type
- other project details.
