Entity type (if applicable):

Is the group registered as a legal entity?

Yes No

Physical address of entity

Location of land involved in the project

Land area in hectares:

Has this project been discussed with the landowner(s) and/or relevant land-manager(s)?

Yes No

Who will be completing the Sediment Reduction Plans? Please choose one of the following:

Your field advisor approved by KMR (Please provide name if applicable)

KMR Field Advisor

What are the objectives of your project? (200 words max)

Who will be involved in this project?

Please indicate what groups or individuals will be involved with different aspects of the work, such as planting, fencing, purchasing supplies, management, community and mana whenua engagement and education.

How will your project be managed?

Is there a person that will project manage the work? Is there a committee?

What other community groups, mana whenua groups, organisations and/or businesses will you be involved with?

What might be your in-kind contributions?

In-kind contributions may include management, site preparation, planting, plant propagation, maintenance, pest control and other types of work. Please tell us which community groups, mana whenua groups or individuals may be providing this.

Indicative Project Costs

Please provide information about the indicative costs of your project.

If you are not yet clear on costs, a KMR Field Advisor can work through these with you using market-based schedules for activities like fencing and planting.

Note: KMR can contribute up to 50% towards significant costs for projects.

Item & Supplier Name	Quantity/Unit	Unit Cost (\$)	Sub-total Amount (\$)	KMR Contribution
Total project cost/Contribution sought from KMR (\$)				/

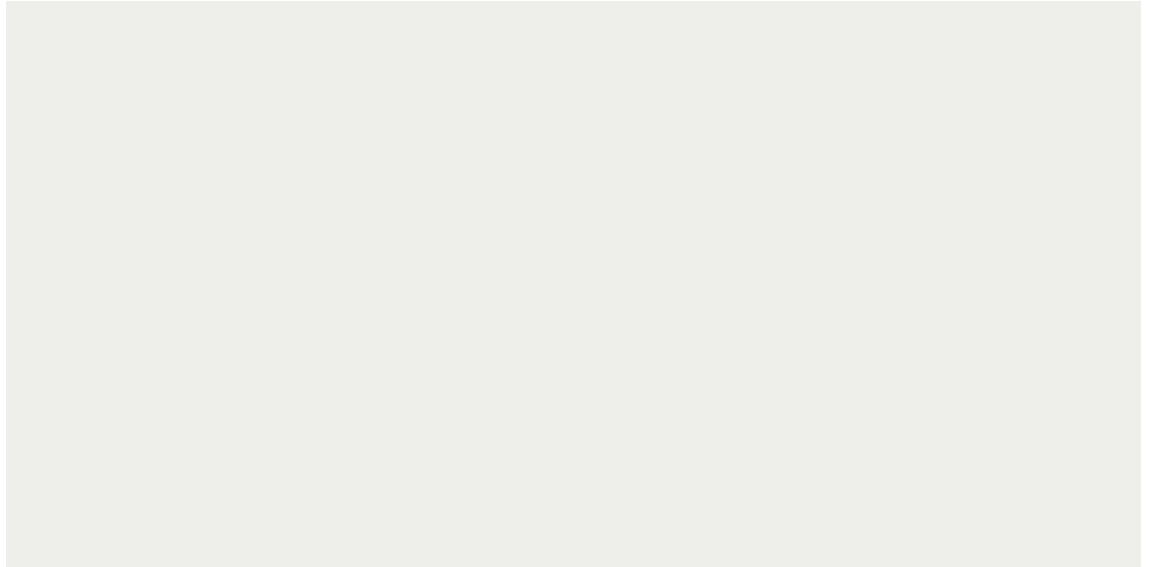

Has this project/land received money from any other organisation? Yes No

If you answered yes, please provide details of the organisation and contribution below:

Land Area

Please include a map of the land or land parcel to be included in the project. Indicate the potential land holdings on the map.

Note: A Google Maps image or similar is sufficient. If that is not possible, then please ensure you provide a clear description of the proposed areas of land below. A KMR Field Advisor will assist you with further mapping.

Please list the addresses of land to be included in the project, if known at this stage.
